**Benson's Gourmet Seasonings are salt-free, sugar-free, gluten-free blends** which contain no MSG, preservatives, chemicals of any kind, and no potassium chloride. We use premium gourmet ingredients without fillers, so you use less to achieve optimum flavor.

Since 1989, our family-owned and operated business has taken great pride in the quality and taste of each blend. We started our business because Mom had three heart attacks, the first in 1958. She dearly loved salt, but she had to change her cooking style. There were no salt-free seasoning blends available then, but we learned how to get flavor in the food without using salt or high sodium products.

Many people today want, or need, to watch their sodium intake. The common response to food with no salt is... "The food tastes bland." We have eliminated this problem with our seasonings and recipes. We have also developed a unique all natural salt flavor (salt substitute). **Enjoy and use in Good Health!**

### *The Sportsmen's Collection*

**Benson's Gourmet** is proud to introduce "The Sportsmen's Collection" In the early days of the country virtually all meat was game, hunted in the wild. We've become accustomed to range and farm-raised meats since then; but today game is making a comeback. Game meats are perfect for modern times because they're naturally healthful. Even though much of the venison, pheasant, rabbit and quail is actually farm-raised and not truly wild, the health benefits are still there. The main advantage of game is its low fat content. *Four ounces of roast venison has fewer than 4 grams of fat and about 180 calories, where as the same weight of roast beef has around 30 grams of fat and about 425 calories.* Farm-raised game is raised in a wholesome manner and void of steroids, hormones, and antibiotics. If you don't have a hunter in the family, farm-raised game is available through many natural food stores, better meat markets, and mail order.

**#115 Ponderosa** - This very aromatic blend will dramatically enhance your favorite recipe for big game - deer, elk, bear, moose, caribou, antelope, buffalo, wild boar, javelina, etc. A seasoning of exceptional flavor and aroma. Also, excellent with beef.

**#116 Heritage** - A savory blend of 17 herbs and spices. Heritage will richly enhance the flavor of your favorite game bird and water fowl recipes. Great with domestic turkey or chicken recipes, and makes excellent stuffings.

**#117 Bravado** - Tex-Mex - medium-hot, spicy chili seasoning is a robust blend of 18 herbs and spices for a delicious well-rounded chili taste. Use in your favorite venison, meat or vegetarian chili recipes. Not just for chili. Mix with Table Tasty for a taco seasoning to use for tacos, beans, tortilla chips, popcorn, eggs, soups, and sauces. Like it hotter? Just add more Bravado.
